SUMMARY

Product-focused designer with 7+ years of experience designing and scaling digital products across fintech and multi-partner platforms. Deep expertise in design thinking, user experience design, information architecture, and customer journey mapping. Proven ability to simplify complex systems into intuitive, scalable products — working across distributed, cross-functional teams to deliver measurable impact aligned with business and user needs.

EXPERIENCE

Senior Product Designer

2022 – Present

Inclusivity Solutions | Remote | Reporting to CPO | Dual role: UX strategy + frontend delivery

- Led end-to-end UX strategy and user interface design for the ASPIN platform — a multi-country insurance system serving 5 million customers, 1 million active policies across 11 countries.
- Applied design thinking methodologies and ran 10+ usability testing sessions to redesign onboarding, policy, and claims journeys, improving task completion and reducing operational friction.
- Facilitated bi-weekly design workshops and design critique sessions with cross-border teams (Kenya + Cape Town), maintaining design quality across rapid sprint cycles.
- Developed information architecture, customer journey maps, and design documentation to guide multi-market rollouts across 10+ partner implementations.
- Established a scalable design system and reusable UI component library, reducing per-partner bespoke effort by ~40% and cutting design-to-production cycles to ~5 days (over 60% faster).
- Achieved a 4.0/5 CSAT score across 5 partner organisations, with Inclusivity's internal team rating satisfaction at 100% (5★) and Britam at 4.1/5.
- Introduced PostHog analytics for data-driven product decisions; mentored distributed team and led project management across all design and frontend sprint deliverables.

Product Designer / UX Lead

2022 – 2025

Inclusivity Solutions | Remote | Concurrent UX-focused responsibilities within same organisation

- Conducted user research, competitive analysis, and customer feedback analysis across 10+ partner implementations to identify friction points and prioritise product improvements.
- Designed and maintained a scalable design system ensuring visual design consistency, reducing design inconsistencies across products by standardising 50+ reusable components.
- Translated business requirements into wireframes, interactive prototypes, and user flows using Figma — delivering an average of 2 design iterations per bi-weekly sprint.
- Created design documentation, pattern libraries, and onboarding guides supporting engineering teams across Kenya and Cape town.
- Applied agile methodologies and project management practices to align stakeholder expectations and accelerate delivery across multiple concurrent partner rollouts.

Lead UX Designer

2019 – 2022

Yellow Pages Kenya

- Led full platform redesign using design thinking and user research — growing users from 472K to 1.7M (+260%) and sessions from 631K to 2.3M; reduced bounce rate from 33.78% to 24.43% (−28%).
- Simplified core user experience design around a Search → Find → Contact journey through responsive design, information architecture improvements, and customer journey mapping.
- Applied agile methodologies managing a cross-border team of 4 (Kenya + Cape Verde) across multiple African markets.

Frontend Developer

2018 – 2019

Isobar (Dentsu Aegis Network)

- Developed responsive web interfaces focused on visual design and usability for multiple client brands; delivered analytics-informed UI improvements using social listening tools.

Web Designer & Developer

2017 – 2018

Africa 118 Inc.

- Designed and developed e-commerce platforms and websites for SMEs, applying user experience design and branding principles to deliver responsive, client-aligned digital solutions.

SKILLS

UX & Product Design Design Thinking, UX Strategy, User Experience Design, User Interface Design, Visual Design, Information Architecture, Customer Journey Mapping, Wireframing, Prototyping, Interaction Design, Usability Testing, User Research, Responsive Design

Design Process Design Systems, Design Workshops, Design Critique, Design Documentation, Competitive Analysis, Customer Feedback Analysis, Agile Methodologies, Project Management, Problem Solving, Creative Thinking, Branding

Tools Figma, PostHog, Analytics Tools

Frontend React, Next.js, JavaScript, TypeScript, HTML, CSS

Strengths Product Thinking, Cross-functional Collaboration, Mentorship, Remote Team Leadership, Delivery Execution

KEY PROJECTS

ASPIN Platform Redesign — Inclusivity Solutions

- Transformed a complex insurance system into a scalable, workflow-driven product; impacted 5M customers across 11 countries, supporting 1M active policies and achieving a 4.0/5 CSAT score.

Embedded Insurance Journeys — Inclusivity Solutions

- Designed configurable journeys deployed across 10+ partners; reduced per-partner design effort by ~40% through reusable design systems and pattern libraries.

Yellow Pages Platform Redesign

- UX-led redesign grew users 472K → 1.7M (+260%), sessions 631K → 2.3M, and reduced bounce rate by 28% through improved information architecture and responsive design.

EDUCATION & CERTIFICATIONS

Diploma in Web Design & Development *2016*
Nairobi School of Digital Design

Frontend Development Certification *2017*
freeCodeCamp

Human-Computer Interaction: Foundations of UX Design *2026 (In Progress)*
Interaction Design Foundation

AI-Powered UX: Next-Gen Product Design *2026 (In Progress)*
Interaction Design Foundation

Continuous Learning: LinkedIn Learning, Udemy, Coursera
